GRAND MASTER'S TOUR PHILIPPINES

APRIL 17 – MAY 3, 2020

" A WELL INFORMED TRAVELLER IS A SAFER TRAVELLER "

"Officially known as the Republic of the Philippines, the Philippines is an archipelago nation consisting of 7,641 islands in Southeast Asia. This may sound like a daunting number of islands, but only a few islands attract visitors on a Philippines vacation. The country is generally grouped into three main collections of islands: Luzon in the north, Visayas in the centre, and Mindanao in the south.

Over 100 million people live in the nation, making it one of the largest countries in the world. Manila, on the northern island of Luzon, is the nation's capital, but the southern islands and their beaches and resorts attract most of the tourists.

Although Southeast Asian in origin, the country has a variety of Spanish and American influences due to it being a colony of both these nations throughout history. You'll find that most people speak excellent English, while much of the local architecture reflects Spanish influences. Even the country's name is taken from the Spanish King, Philip II."
